

## **My very short list of things to do after your wedding ceremony.**

- go to the bathroom
- while there, retouch makeup
- take a few minutes alone with your new SPOUSE!
- leave time to sign marriage licenses (your officiant will guide you through this)
- eat some food!
- be sure to grab sentimental things like unity candle, photos, anything you carried down the aisle, etc.
- put your engagement ring back on - the band is worn first, closest to your heart, with the engagement ring on top.
